BE A PART OF THE UNPARALLELED LEGACY

Established in 2001 as the Rayat-Bahra Group, by the Visionary Chairman, S. Gurvinder Singh Bahra, the Rayat-Bahra University with its clear vision and mission offers its young and energetic minds a space, where their energy and the imagination could take flight and soar high and their ideas bear fruit. For over two decades now, the Rayat-Bahra Group has encouraged minds with a rich inheritance of academic excellence, developing learning frameworks that have been well ahead of times. The Institution under the vision of its Chairman has been continuously working towards the growth approaching several branches and holding a proud position in the field of Engineering, Dentistry, Pharmaceutical Education, Law, Management, IT Professionals, Nursing, Education, Allied Health Sciences, Tourism Airlines & Hotel Management, Sciences and Social Sciences.

We hold pride in the fact that the Rayat-Bahra University has a strength of nearly 15,000 students and highly qualified staff under the leadership of globally recognised and distinguished PU alumnus Prof. (Dr.) Parvinder Singh with glorified 38 years experience in academics & administrations, who explore multidimensional personality of the students' excellence in the field of education and curricular activities. In the Rayat-Bahra University we have made the choice to strive for excellence in all that we inculcate in our students to make them understand and imbibe honesty, competence with a will to come out of the clutches of monotony so that imaginative fecundities are embraced. In alignment with the vision and mission statement of Rayat-Bahra University, we believe that true learning is never confined to a classroom. The students reach out to society with a selfless service mind to give back to the society through various programmes. Corporate Social Responsibility takes the form of Students Social Responsibility and Educations' Social Responsibility.

In the future times achieving autonomy would be of prime importance for us as it shall give us the freedom to append new subjects relevant to the dynamic industry requirements. A plethora of value added courses with credits not only introduce students to other disciplines but also improves their prospects while appearing for job opportunities. Courses are not just pertaining to academics but also related to employability skills.
